Scalemaster® CB-EC Carbon Block cartridges, with a sintered activated carbon block obtained from coconut shells, filter and treat water from chlorine, unpleasant odours and taste. Scalemaster® CB-EC Carbon Block filter cartridges are manufactured in Italy using special technologies that make it possible to reduce greenhouse gases in the atmosphere.

CPP cartridges are tested and certified under the most stringent procedures worldwide.

In compliance with DM 25 (Italy) and EAC/Ghostreghistrizia (Russia).
