Box Quantity	10
Shelf Life	N/A

TECHNICAL HELPLINE 01785 811636

Rapid check of dosing of chemical inhibitors manufactured by Scalemaster® and other Sodium Nitrate inhibitors. Gives immediate confirmation of inhibitor status.

Enough for 50 system tests.

Remember: When using any dipstick method, not all chemicals are the same, a negative result with dipstick does not necessarily indicate that there is no inhibitor in the system.
