

Product Category: Scale Inhibitors

SCALEMASTER MINI 15mm ELECTROLYTIC SCALE INHIBITOR

*** For retro fitting to small appliances / boilers less than 35kW**

| | |
|-------------------|---------------|
| EAN | 5027639401096 |
| Product Code | 401096 |
| Pipe Diameter | 15mm |
| Body Material | Copper |
| Fitting Type | Compression |
| Maximum Flow Rate | 32 L/minute |
| Length | 50mm |
| Diameter | 50mm |
| Weight | .18kg |
| Guarantee | 3 Years |

Features & Benefits

- Slip Couplings for easy fit
- Earth bonding not required
- Needs no chemicals or power
- Easily installed
- No moving parts, no maintenance required
- 3 Year product performance guarantee
- Manufactured in the UK
- Scalemaster patented technology
- WRAS Approved Product
- Single appliance protection
- Saves on energy costs
- For retro fitting to appliances less than 35kw (Not for whole house use)

Installation Instructions

Magnetic Scale Inhibitors are only suitable for individual Appliance Protection.

- Plumb into the cold water supply pipe a minimum of one metre to a maximum of 2 metres before the appliance
- Operating temperature 4°C - 40°C
- Do not allow to freeze
- Maximum operating pressure 8 bar
- Do not solder
- Installation should be made to comply with all local byelaws and building regulations

Additional Information: Using a kettle - Magnetic effect changes hard water scale into tiny particles. The particles pass out of hot water heating systems in the flow of water called off for use. However to prevent an accumulation of scale particles in a kettle pour away any unused hot water and refill with cold.
