Towel Rail Antifreeze - FOR TOWEL RAILS AND OTHER CLOSED LOOP HEATING/COOLING CIRCUITS incl ELECTRIC HEATED SEALED TOWEL RAILS Compatible with all materials commonly found in heating, chilled water and solar systems.

Dose Rate:

Pre-mixed, ready for use. Use neat from the bottle. Do not dilute.

Directions for use:

Pour directly into towel rail (or heating/cooling circuit) to give burst protection down to -29°C . It is recommended that systems filled with antifreeze are drained and refilled every 5 years.

Health & Safety:

Contains 40% monopropylene glycol. Keep out of reach of children. Dispose of contents & container in accordance with national regulations. Safety Data Sheet available upon request. Do not use with PRIMATIC single feed cylinders.

Manufactured in the UK by Scalemaster® Limited.

All Scalemaster® Heating System Chemicals are manufactured using non-hazardous formulations.
